

Intervention in the NICU:

A Neurodevelopmental Approach

Roberta Gatlin PT, DSc, PCS

Faculty

Roberta “Bertie” Gatlin, PT, DSc, PCS graduated from University of Memphis in 1986 with a BS in Special Education and from the University of Tennessee Health Science Center Department of Physical Therapy in 1989 with a BS in Physical Therapy. She completed her Doctorate of Science with an emphasis in Neurological and Pediatric Physical Therapy in 2013. She received her Board Certified Pediatric Clinical Specialty in 2001 and recertification in 2011. Her experience draws from over 28 years in the field of pediatric physical therapy. She is currently Assistant Professor in the Physical Therapy Department at Emory & Henry College, Marion, Virginia. Bertie’s experience encompasses physical therapy within the NICU, developmental follow-up clinic and outpatient pediatrics servicing all populations. Her research focuses on the Neonatal Abstinence Syndrome, wound care practices for the premature infant in a NICU setting and obtaining norms for children in the United States on the Infant Motor Profile. She currently holds the secretary position for the Tennessee Physical Therapy Association Executive Committee, the Regional VI Director and Neonatology Specialty Interest Group’s Vice-Chair position for the Academy of Pediatric Physical Therapy of the American Physical Therapy Association.

Disclosure: Financial: Roberta Gatlin receives a speaking fee from Education Resources, Inc. for this course. Non-Financial: Roberta Gatlin is on the membership Board of the APTA.

About this Course

This course is designed to provide participants with evidence-based research that will contribute to their development and implementation of best practices of therapeutic intervention programs within a NICU environment. This course is designed to provide the therapist currently practicing within a NICU setting the knowledge base to apply evidence-based assessment, application and intervention services.

Objectives

- 1 Discuss the theoretical basis and the evidence-based outcomes for therapeutic services in the NICU
- 2 Identify common self-regulation signals and different state behaviors displayed by premature infants
- 3 Discuss typical motor and sensory development observed in premature infants; 23-24 weeks gestational age to one-month old post conceptual age
- 4 Discuss the pathophysiology of common medical diagnoses found in the NICU, the outcome of these diagnoses and potential impact a therapeutic management/treatment intervention may have with the infant and family/caregiver
- 5 Apply evidence-based research to clinical application for therapeutic evaluation, assessment and intervention in the NICU and after discharge
- 6 Provide evidence-based recommendations of follow-up collaborative care of an infant and family/caregiver after discharge from the NICU

Audience

Because PT, OT and SLP practice in the NICU environment is not considered entry level by the AOTA, APTA and ASHA, it is advised that clinicians engage in continuing education courses and mentorships. This course is geared at an introductory to intermediate level.

Help your patients achieve better outcomes.

Schedule – Day 1

7:30-8:00	Registration/Continental Breakfast
8:00-10:00	NICU Abbreviations History of the NICU Competencies for the Rehab Professional in the NICU Levels of the NICU Equipment in the NICU
10:00-10:15	Break
10:15-12:00	Embryology and the Neonate Neonatal Development Inside & Outside the Uterus GM, FM, Oral Motor, Sensory and Behavioral Expectations of Development
12:00-1:00	Lunch (on your own)
1:00-2:00	Practice Frameworks and Evidence Based Practice
2:00-3:00	Hierarchy of Systems Interactive Capabilities
3:00-3:15	Break
3:15-4:15	Neurodevelopmental Assessment of the NICU Infant: Observation and Hands on Assessment Standardized Testing TIMP Neurological Assessment of the Preterm and Full-Term Infant Infant Neurobiological International Battery Neonatal Behavioral Assessment Scale
4:15-5:15	Developmental Supportive Care: NIDCAP Theory Evidence
5:15-6:00	Evaluation and Assessment of the Neonate Wrap up Questions/Video Assessments

Schedule – Day 2

7:15-7:30	Continental Breakfast
7:30-8:00	Review/Questions
8:00-10:00	Therapeutic Intervention in the NICU Handling, Positioning, Massage, Facilitated Motor Activity Complications of the NICU patient
10:00-10:30	Lab Positioning infants (All participants need to bring baby doll similar to their patient size)
10:30-10:45	Break
10:45-12:00	Lab Cont.
12:00-1:00	Lunch (on your own)
1:00-1:30	Diagnosis of the NICU client HMD/RDS/CLD, ROP, IVH/PVL, NEC
1:30-2:00	Neonatal Abstinence Syndrome*
2:00-2:30	Late Preterm Infant*
2:30-3:00	Discordant Twins, IUGR/SGA*
3:00-3:15	Break
3:15-4:00	Wound Care in the NICU* Wrap up and Questions

***EBP and Outcomes will be presented with each diagnosis and NICU admission**

"I have attended many NICU Intervention courses; this was by far the best organized, comprehensive, and useful course I have attended. Roberta Gatlin is so knowledgeable in NICU and Pediatric concepts. My peers and I took away many ideas and concepts we will integrate into our NICU. This is a great course for both beginning and seasoned therapists." – C. Walker

ERI: Life-changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage:

- o Techniques you'll use the next day
- o Peers who share your passion
- o Renowned faculty
- o Evidence-based courses that improve outcomes
- o 30 years of life-changing learning

Specialty Tracks throughout the lifespan – Neonatal, Pediatric, Adult, Geriatric

Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us, and plan every course you'll take in 2019.

Visit educationresourcesinc.com for all of your 2019 courses.

ERI Rewards

Your ERI experience is more rewarding than ever.

- o First Course Discount
 - Bring a Friend Savings
 - Group Discounts
 - \$100 off your 4th Multi-day Course
 - o And more
- Subject to availability. Exclusions may apply.
