Pediatric Vestibular Therapy: Young Children Through

Inger Brueckner, MS, PT

Adolescents

Faculty

Inger Brueckner, MS, PT has practiced vestibular rehabilitation since 1994. She began teaching after completing the Emory University/APTA Vestibular Competency course in 2003. In 2010 she joined the Rocky Mountain Hospital for Children Center for Concussion as the creator and director of PACER (Progressive Acute Concussion Exertional Rehabilitation). She is a member of a multi-disciplinary team focused on providing cutting-edge, effective, safe rehabilitation. Working for Presbyterian/St. Luke's Medical Center in Denver, CO, she has presented research findings at APTA CSM, published journal article, book chapter, developed protocols, and been invited to speak at international, national, and local conferences. She is passionate about providing the best care for all patients in a collaborative medical team, sharing lessons learned through continuing education.

Disclosure: Financial: Inger Brueckner receives a speaking fee from Education Resources for teaching. Non-Financial: She has no non-financial relationships to disclose.

About this Live Webinar

Have you ever considered the importance of the sensory system that detects movement while rehabilitating children and adolescents? The pediatric patient will experience vestibular dysfunction at similar rates as adults and any change either peripheral or central can greatly impact normal development of movement and postural control. This course will present current understanding of the scope of the vestibular dysfunction problem, best practices, systematic evaluation, and treatments addressing vestibular deficits in the school-aged child and adolescent. The course combines lecture, demonstration, and case study to address dysfunction accurately and efficiently. This course is updated as new information and guidelines are published. The primary goal is to challenge therapists to re-think movement and stability in their practice, using a comprehensive understanding of the vestibular system. Principles presented can be applied across the lifespan and with a multitude of disability levels. Access to videos of demonstrated techniques will be included.

Learning Objectives

- Identify functional impairments or complaints by children and/or their parents that indicate the need for a vestibular screening.
- Recognize at least three vestibular diagnoses in children that affect motor performance and development.
- Relate the functions of the vestibular system to normal skill development in children and adolescents.
- Connect vestibular dysfunction to problems in motor performance and behaviors during child development.
- Choose age-appropriate assessment tool to evaluate a child for vestibular dysfunction.
- Determine an appropriate individualized treatment program for a pediatric patient with vestibular dysfunction.
- Advance an intervention plan to address a child's functional impairment(s).

Audience

This course is appropriate for PTs, PTAs, OTs OTAs, and health practitioners that

Help your patients achieve better outcomes.

life-changing learning for therapists by therapists

Schedule – Day 1 5:10 pm - 9:30 pm EST (US)

5:10-5:30 Web	inar Registration/Zoom Course Opens
---------------	-------------------------------------

- 5:30-7:15 Introduction to Vestibular Rehabilitation: Anatomy and physiology of the vestibular system, reflexes, balance, posture, head righting, gaze stabilization, updates of evidence
- 7:15-7:45 Development and maturation of the vestibular system, age differences, multi-sensory reweighting, postural sway

7:45-8:30 Break

8:30-9:30 Epidemiology of dysfunction in children, pathophysiology, nystagmus, BPPV, migraine related syndromes, otitis media, unilateral and bilateral vestibular loss, mTBI/concussion/trauma, ototoxicity, central dysfunction, dysfunction associated with CP, ADHD, post cochlear implants, visual sensitivity

Schedule – Day 2 5:10 pm - 9:30 pm EST (US)

Webinar Registration/Zoom Course Opens	
Treatment principles: adaptation, habituation and substitution, critical periods, adults vs children, red flags and cautions	
Evaluation: subjective complaints, functional observation, screening, VBI testing, ocular motor screening	
Demonstration for VBI testing, ocular motor screening	
BPPV in younger patients, positional testing Dix- Hallpike, modified Brandt-Daroff, Canalith Repositioning Technique	
Break	
Demonstration of positional testing and treatment with modifications	
Specific vestibular testing: VOR, VOR cancelation, head thrust, head shaking, Dynamic Visual Acuity Test, imaginary targets, Motion Sensitivity Quotient with demonstration and discussion of modifications. Review of prioritizing evaluation components and maximizing hands-on time	

Schedule – Day 2 (cont.)

9:00-9:30 Discussion of exercises with ocular motor emphasis (gaze stability), brock string, laser pointers, body-on-head motion, dual task, throw and catch modifications, using multi-sensory feedback

Schedule – Day 3 5:10 pm - 9:30 pm EST (US)

5:10-5:30 5:30-5:45	Webinar Registration/Zoom Course Opens Case discussion
5:45-6:45	Autonomic dizziness, syncope, orthostatic intolerance, POTS, post-COVID, nausea and anxiety
6:45-7:00	Sex differences in presentations and development
7:00-7:30	Dynamic movement and posture assessments, objective measures for balance
7:30-7:45	Principals for balance retraining
7:45-8:00	Break
8:00-8:30	Decision making for HEP, dosing, progression, giving feedback during session, clinical take-a- ways, diaphragmatic function, startle posture and visual vertigo
8:30-9:00	Demonstration: symptom relieving techniques, grounding, use of manual therapy
9:00-9:30	School considerations, visual ergonomics, modifying environment, play, timing of activity, patient and care giver education, lifestyle management exertion, sleep, hydration
Schedule	— Day 4 5:10 pm - 9:00 pm EST (US)
5:10-5:30	Webinar Registration/Zoom Course Opens
5:30- 6:45	Exercise examples, inclusion of core stability, visual focus and balance to commonly used interventions, modifications for low vision, altered

- posture control, low cost options for equipment, resources, how to search for ideas, collaboration among disciplines
- 6:45-8:15 Break into groups for case discussion and presentation of treatment
- 8:15-9:00 Present cases to group including discussion of progression of activity, presentation of case examples by instructor

ERI: Lifechanging learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day - and have your life changed in return. ERI is lifechanging learning, for therapists by therapists.

The ERI Advantage:

- Techniques you'll use the next day
- Peers who share your passion
- Renowned faculty
- Evidence-based courses that improve outcomes
- 30 years of life-changing learning

Specialty Tracks throughout the lifespan – Neonatal, Pediatric, Adult, Geriatric

Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us and plan every course you'll take in 2024.

Visit educationresourcesinc.com for all of your 2024 courses.

ERI Rewards Your ERI experience is more rewarding than ever.

This course meets the criteria for 14.5 contact hours 1.45 CEUs, Intermediate Level.

Approved Provider

Education Resources Inc. is an AOTA Approved Provider of professional development. Course approval ID# 09596. This Distance Learning-Interactive course is offered at 14.5 contact hours, 1.45 CEUs (intermediate level, OT service delivery & Foundational Knowledge). AOTA does not endorse specific course content, products or clinical procedures.

This course can be used toward your NBCOT renewal requirements for 14.5 units. Approved provider of the FL Board of Occupational Therapy-CE Broker – 17 hrs. This course meets the approval of the TX Board of OT Examiners.

Application has been made to the FL Physical Therapy Association for 17 continuing education contact hours.

Approved by the MD Board of Physical Therapy Examiners. Application has been made to the MN Board of Physical Therapy. Approved by the NJ Board of Physical Therapy Examiners.

Approved sponsor by the State of IL Department of Financial and Professional Regulation for Physical Therapy for 17 contact hours. Approved provider by the NY State Board of Physical Therapy for 17 contact hours (1.7 CEUs).

Education Resources, Inc. is an approved provider for Physical Therapy CEUs in the following states: CA, OK and TX.

The following state boards of physical therapy accept other states' approval: AK, AR, AZ, DC, DE, GA, HI, ID, IN, KS, KY, MA, MI, MO, MS, NC, OR, PA, RI, SC, UT, VA, VT, WI, WY. The following state boards of physical therapy either do not require course pre-approval or do not require CEUs for re-licensure: AL, CO, CT, IA, ME, MT, NE, ND, NH, SD, WA.

12 hours of this course qualify towards the discipline-specific hours for the 20-hour requirement for NDTA re-certification. They do NOT qualify towards the 8-hour NDTA Instructor requirement for re-certification.

Please contact us with any special needs requests: info@educationresourcesinc.com or 800-487-6530.

Education Resources, Inc. 266 Main Street, Suite 12, Medfield, MA 02052.

Webinar Dates and Times

April 1-22, 2025

5:10 pm EST • 4:10 pm CST • 3:10 pm MST • 2:10 pm PST (US)

Registration is for all sessions. Zoom log-in instructions and course materials will be emailed/added to your ERI account 5-7 days prior to the first date of the Webinar.

\$389 fee. **LIMITED ENROLLMENT** Cancellation will be accepted until 14 days prior to the start date of the course, minus a \$75 Administration Fee. There will be NO REFUNDS after this 14-day deadline. We encourage you to register online!
