

Baby Treatment:

Contemporary NDT and Evidence-Based Intervention

Suzanne Davis Bombria, PT, C/NDT

Faculty

Suzanne Davis Bombria, PT, C/NDT is an internationally recognized clinician, speaker & consultant. She is one of the investigators in the RCT project titled “Multi-modal intervention for children with cerebral palsy” and is versed in research. Currently residing in CT, Ms. Davis Bombria applies evidence-based practice with babies and children of all ages, specializing in intensive therapy as well as ongoing intervention. She enjoys teaching therapists around the world and is dedicated to providing insight into contemporary NDT. Ms. Davis Bombria is a Pediatric Coordinator-Instructor and Advanced Course Instructor for the NDTATM. Her passion for her work as a pediatric therapist, instructor and mother of a son with cerebral palsy, along with her easy presentation style, provide the theoretical and practical solutions all therapists can apply to their patient population.

Disclosure Financial: Ms. Davis Bombria receives a speaking fee when she teaches for Education Resources. NonFinancial: Ms. Davis Bombria is a member of the instructor group of NDTA.

About this Live Webinar

Contemporary NDT has undergone a paradigm shift that promotes thinking and doing in a new way! This course specifically helps therapists provide evidence-based early intervention in order to impact a baby and family's life. Find out how and why this age is the time to emphasize prevention to maximize outcomes for gross motor, fine motor and respiration. Learn how to enhance developmental outcomes while considering the research that guides decision-making. Optimize ways to support parents in engaging with their children. Analyze development in neurotypical infants and compare to delayed and atypically developing babies and toddlers. An emphasis is placed on functional outcomes appropriate for this age group, and how to incorporate strategies into family life. Case analyses will include developmental delay, cerebral palsy, Down syndrome and prematurity.

This course utilizes lecture, labs, and videos.

Objectives

- Apply current research findings to increase effectiveness of intervention
- Identify cues of engagement & disengagement
- Apply strategies to assist regulation for calming & organizing in infants & toddlers
- Analyze respiratory, gross motor and fine motor components and development
- Utilize family-chosen outcomes & observational assessment to guide intervention
- Develop effective strategies for the desired functional outcomes
- Discuss family factors and identify practical home program ideas

Audience

This course is relevant for Physical Therapists, Physical Therapist Assistants, Occupational Therapists, Occupational Therapy Assistants and Speech Therapists.

Help your patients achieve better outcomes.

Schedule – Day 1 6:40 pm to 10:15 pm EST (US)

This course utilizes lecture, labs, and videos.

6:40-7:00	Webinar Registration/Zoom Course Opens
7:00-8:30	Contemporary NDT- shifting paradigm What does the evidence say? Motor Control, Motor Learning, NGST, Neuroplasticity Considerations of the Musculoskeletal System
8:30-8:45	Break
8:45-10:15	Intervention guidelines: Engagement/disengagement cues Grading sensory input: LAB Regulation strategies for infants & toddlers- how to calm & organize: LAB

Schedule – Day 2 6:40 pm to 10:15 pm EST (US)

6:40-7:00	Webinar Registration/Zoom Course Opens
7:00-8:30	Spine, Ribs & Respiration - impact on development & treatment strategies
8:30-8:45	Break
8:45-10:15	Developmental Components and Treatment Strategies in Prone and Supine: Upper Extremity Developmental Components and Treatment Strategies for Floor Mobility: Rolling, Belly Crawling, Creeping

Schedule – Day 3 9:10 am to 4:00pm EST (US)

9:10-9:30	Webinar Registration/Zoom Course Opens
9:30-10:45	Developmental Components and Treatment Strategies in Sitting: Gross Motor/Postural Control
10:45-11:00	Break
11:00-11:45	Developmental Components and Treatment Strategies in Transitional Movements: Pelvic Girdle Control, Shoulder Girdle Control
11:45-12:30	Developmental Components and Treatment Strategies in Standing and Walking
12:30 – 1:00	Lunch
1:00-2:30	Developmental Components and Treatment Strategies in Standing and Walking (cont.) Developmental Components and Treatment Strategies in Forearm, Wrist and Hand
2:30-2:45	Break
2:45-4:00	Hand continued Parent Perspective: Being Therapeutic vs. Being the Therapist; Ideas for Home

Course Requirements:

During the course, please have a doll of about 20 to 24" with bendable parts like a rag doll. (Stuffed animals do not usually work well.) Dolls will be used to practice techniques.

ERI: Life changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage:

- Techniques you'll use the next day
- Peers who share your passion
- Renowned faculty
- Evidence-based courses that improve outcomes
- 30 years of life-changing learning

Specialty Tracks throughout the lifespan – Neonatal, Pediatric, Adult, Geriatric

Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us and plan every course you'll take in 2025.

ERI Rewards

Your ERI experience is more rewarding than ever.

- First Course Discount
- Group Discounts
- \$100 off your 4th Multi-day Course
- And more

Subject to availability. Exclusions may apply.
