

Treating the Child with Hypotonia

Colleen Carey, DPT, C/NDT

Faculty

Colleen Carey, DPT, C/NDT, is the owner and director of the Children's Therapy Center, a pediatric outpatient center located in Fort Washington, PA. A dynamic speaker, she teaches frequently in seminars to professionals on the topics of early intervention, therapeutic handling, orthotics, and functional goal outcomes. Colleen has extensive experience with a variety of developmental disorders and coordination disorders including cerebral palsy and autism. She has broad experience in indications for physical therapy within the educational environment and the role of adaptive physical education. Colleen actively mentors other therapists to share her knowledge and insights and has been a clinical instructor for 25 years. Colleen is an accomplished Coordinator Instructor with NDTA. She studied at Quinnipiac College, New York University, and Temple University with a focus on developmental disabilities. She is enthusiastically pursuing ongoing professional training to improve the care of her clients. She received her Basic NDT (Neuro-Developmental Treatment) certification in 1987 and her Baby NDT certification in 1995. Colleen has worked in community early intervention programs, preschool settings, educational settings, rehabilitation hospitals, and outpatient centers. She supports families across cultural and ethnic barrier and passionately advocates for children and families. She remains focused on functional outcomes in all environments.

About this Live Webinar

This webinar focuses on using the contemporary NDT Practice Model in treating the child with hypotonia. Specific strategies to improve motor control in this population will be presented. Treatment strategies based on the common impairments of the sensorimotor system in this population will be demonstrated through the use of videotapes, case studies and practice labs. Participants will practice strategies to improve functional motor performance of the child with hypotonia. A jointed rag doll is required for portions of the course to enable practice of handling strategies. This course is designed for the physical therapists, physical therapy assistants, occupational therapists, and occupational therapist assistants.

Objectives

1. Explore (5) principles from current motor control literature that address postural control issues in children with hypotonia to create functional goals and individualize task challenges for successful occupational engagement.
2. Analyze (5) common deficits in performance skills (motor) and client factors (body structures and functions) commonly observed in children with hypotonia that may impact participation in daily activities across environments.
3. Discuss (2) treatment activities within the application of NDT Practice Model Framework that serve as interventions that support occupations, including manual therapy or handling, to target identified performance skill and client factor deficits in children with hypotonia.
4. Create a treatment session that include the therapeutic use of activities and occupations by analyzing and constructing an individual, task, environment triad to enhance functional participation.

Audience

OTs, OTAs, PTs, PTAs, working with children with hypotonia, infancy through adolescence.

Financial Disclosure: Colleen Carey receives an honorarium from Education Resources, Inc. **Non-Financial:** Colleen Carey has no non-financial relationships to disclose.

Help your patients achieve better outcomes.

Schedule Day 1 10:40 am to 5:00 pm EST (US)

10:40-11:00	Webinar Registration/Zoom Course Opens
11:00-12:00	Motor Control in the Child with Hypotonia
12:00- 1:00	Assessment with the NDT Practice Model
1:00-1:15	BREAK
1:15-2:00	Video Assessment of Child with Hypotonia
2:00-2:45	Significance of the Trunk
2:45-3:00	BREAK
3:00-4:00	Treatment Strategies for the Trunk (Movement Lab)
4:00-5:00	Break Out Rooms: Individual, Task, Environment

Available On-Demand Courses

We've infused the excitement and clinical relevance of our live courses into new on demand online series

Learn at your convenience

- 📌 Vestibular Rehabilitation for the School Aged Child and Adolescent Series
- 📌 Torticollis: Assessment and Treatment of Infants and Children Online Series
- 📌 ERI's *Therapies in the School* series – Offering five complete series...more than 25 individual sessions!

Online courses include free downloadable handouts and access for an entire year. [Browse our online offerings!](#)

Schedule Day 2 10:40 am to 5:00 pm EST (US)

10:40-11:00	Webinar Registration/Zoom Course Opens
11:00-12:00	Critical Impairments of the Child with Hypotonia
12:00-12:45	Treatment Strategies for the Shoulder Girdle and Upper Extremity (Movement Lab)
12:45-1:00	BREAK
1:00-1:45	Treatment Strategies for the Pelvic Girdle and Lower Extremity (Movement Lab)
1:45-2:15	Bracing and Therapeutic Adjuncts for the Child with Hypotonia
2:15-3:30	BREAK
3:30-4:00	Treatment Planning and Goal Writing within the NDT Practice Model
4:00-4:30	GROUP ANALYSIS/PROBLEM SOLVING: Children with Hypotonia
4:30-5:00	Treatment Case Study using NDT

NOTE: Portions of the live webinar will include participant movement on the floor. Please consider computer and space set up to support learning. A jointed rag doll is required for portions of the course to enable practice of handling strategies.

ERI: Life-changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage

- Techniques you'll use the next day
- Peers who share your passion
- Renowned faculty
- Evidence-based courses that improve outcomes
- 30 years of life-changing learning

Specialty Tracks

Learn with courses throughout the lifespan – neonatal, pediatric, adult and geriatric. Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us and plan every course you'll take in 2026.

ERI Rewards*

Your ERI experience is more rewarding than ever:

- First course discount
- Bring a friend savings
- Group discounts
- \$100 off your 4th multi-day course

*Subject to availability. Exclusions may apply. Visit our website for details and coupon codes:
