

Play With Purpose: Integrating the Five Sensory Emotional Personality Styles

AnnMarie Murphy, OTD, OT/L, CIMI-2, PNAP

Faculty

Dr. AnnMarie Murphy is an occupational therapist and certified infant massage instructor with advanced training in the evaluation and treatment of sensory processing and integration disorder. Over the last seven years AnnMarie was mentored by the founder of Great Kids Place and creator of the Sensory-motor Emotional EngageMent Frame of Reference (SEEM), Michele Parkins, MS, OTR/L, IMH-E. During her time at Great Kids AnnMarie co-wrote this frame of reference as well as the Sensory-motor Emotional Engagement-Checklist; she also co-developed the adolescent and adult program, Great Kids at Heart, as well as a program to support children and adults who are over-responsive, Sensations As Fun Experiments (SAFE). To support Michele's Frame of Reference, within and outside of Great Kids Place, AnnMarie has had the honor and privilege of presenting this research locally and nationally. Over the last five years, AnnMarie has served as a member on the SEEM research team under the mentorship of Dr. Sarah Schoen. In memory of Michele, AnnMarie hosts a weekly podcast entitled A Sensory Emotional Lens.

Audience

This intermediate course is designed for PTs, OTs and SLPs working with pediatrics through age 13.

About this Course

The Sensory Emotional EngageMent Frame of Reference connects sensory processing, motor experiences, and emotional expression to social-emotional development. Learn the 5 Sensory Emotional Personality Styles and corresponding Sensory Emotional Play Themes and Engagement Roles for improved regulation and enhanced engagement in intervention. Participants will have opportunities to apply the framework to their own clinical scenarios, use the Sensory Emotional Engagement Checklist, determine their own sensory emotional personality, and develop intervention plans. This course brings updated research with contemporary language that builds connection and compatibility amongst the bi-directional impacts of sensory emotional engagement and personality so children and their adults can achieve improved relational and mental health at home, school and in the community.

Learning Objectives

- Differentiate between sensory over-responsivity, under-responsivity, discrimination challenges, postural weakness, and dyspraxia.
- Link foundational sensory-motor capacities to mental health capacities
- Connect sensory processing, adaptive emotional expression, and social participation to personality and behavior.
- Utilize the Sensory Emotional EngageMent Checklist to assess for each of the five Sensory Emotional Personalities (SEPs).
- Determine intervention plans specific to each Sensory Emotional Personality using the P.L.A.Y. Framework that include play themes, sensory motor activities, affective strategies and supporting adult roles
- Identify modifications for the child's environment (in the home and community) to encourage engagement in play and relationships.
- Select strategies to educate parents and caregivers about play and emotional development as well as how to engage using the Sensory Emotional EngageMent (SEEM) frame of reference.

Help your patients achieve better outcomes.
