

Beyond the Oropharynx: Integrating Esophageal Knowledge into Pediatric Feeding Practice

Amanda Adsett, MSc, R.SLP, S-LP(C)

Faculty

Amanda is a pediatric Speech-Language Pathologist with over 15 years of specialized experience in the assessment and management of complex swallowing disorders. For the past decade, Amanda has been a core member of a multidisciplinary Pediatric Aerodigestive Team, managing the needs of patients with co-occurring airway, digestive, and feeding disorders.

Currently practicing at a major children's hospital, Amanda's clinical background spans intensive care, inpatient acute care, and ambulatory settings, including roles as a Clinic Coordinator and clinician within Otolaryngology and Gastroenterology subspecialty teams. Amanda maintains a high-volume diagnostic practice with expertise in Videofluoroscopic Swallow Studies (VFSS) and Fiberoptic Endoscopic Evaluation of Swallowing (FEES), and utilizes Pharyngeal High-Resolution Manometry (P-HRM) for challenging cases.

Disclosures: Financial: Amanda Adsett receives an honorarium from Education Resources, Inc.

Non-Financial: Amanda Adsett has no non-financial disclosures.

About this Course

Learn how a deeper understanding of the esophagus strengthens clinical recognition, feeding management, and team collaboration. This workshop equips pediatric feeding therapists with foundational knowledge, screening skills, and practical strategies for children with known or suspected esophageal involvement.

Participants will examine the anatomy and physiology of the esophagus and its critical interplay with the oropharyngeal phase. The curriculum addresses the clinical presentation of structural, inflammatory, and motility-based pathologies and their specific impact on feeding function. Through complex case studies and video analysis, the course emphasizes scope of practice—empowering therapists to differentiate esophageal red flags, implement effective compensatory interventions, and facilitate timely medical referrals.

Learning Objectives

- Determine the clinical limitations of a dichotomized view of swallowing by analyzing the interdependence of the oropharyngeal and esophageal phases
- Relate esophageal anatomy and physiology to the mechanics of bolus transport and sphincter function
- Correlate clinical signs, symptoms, and comorbidities that indicate potential esophageal contributions to a pediatric feeding disorder.
- Integrate esophageal screening considerations into clinical and instrumental swallow evaluations to guide diagnostic decision-making.
- Choose appropriate referral pathways and documentation language that adhere to scope of practice when esophageal pathology is suspected.
- Modify feeding therapy plans to support safe oral intake and facilitate participation in family mealtime routines for children with esophageal dysfunction
- Apply esophageal findings to the clinical decision-making process to coordinate care within a multidisciplinary team.

Audience

This course is designed for feeding therapist OTs, OTAs, SLPs, SLPAs, lactation consultants and early intervention providers working with children.

Help your patients achieve better outcomes.

Schedule Day 1 - 9:40 am to 4:30 pm EST (US)

- 9:40-10:00 **Live webinar registration**
- 10:00-1:00 **Anatomy & Identification**
- Scope of Practice: Why esophageal knowledge is critical for the feeding therapist?
 - Anatomy & Physiology: Esophageal peristalsis, sphincters, and bolus flow
 - Recognizing red flags and common presenting concerns during feeding assessment
- 1:00-1:30 **Lunch**
- 1:30-4:30 **Pathology & Diagnostics**
- Common structural, inflammatory, and motility disorders (e.g., GERD, eosinophilic esophagitis, esophageal atresia/tracheoesophageal fistula, foreign bodies and caustic ingestion)
 - High risk populations, comorbidities, PFD, and the Aerodigestive patient
 - Diagnostic imaging and testing: VFSS esophageal screenings, contrast studies, and other diagnostic tools (e.g., manometry, pH probe, EGD)
 - **VIDEO** review: esophageal clearance, tertiary waves, stasis

Schedule Day 2 - 9:40 am to 4:30 pm EST (US)

- 9:40-10:00 **Live webinar registration**
- 10:00-1:00 **Differential Diagnosis & Referral**
- Case studies: Differentiating oropharyngeal vs. esophageal dysphagia
 - Managing complex, multi-phase swallowing disorders
 - Differentiating physiological red flags from sensory-based aversion, behavioral feeding patterns, and presentations overlapping with ARFID across development (infant to teen). Documentation and referral writing, including sample language to maintain scope of practice
- 1:00-1:30 **Lunch**
- 1:30-4:30 **Therapeutic Intervention & Collaboration**
- Medical, pharmacological, and surgical interventions
 - Implementing evidence-informed and responsive feeding strategies (e.g. texture and bolus modification, positioning, compensatory maneuvers) and their potential impact on other phases of swallowing
 - Why feeding therapy fails and how to fix it
 - Collaboration in Action: Case analysis, video review, and the feeding therapist's role within Aerodigestive and multidisciplinary teams.

ERI: Life-changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage

- Techniques you'll use the next day
- Peers who share your passion
- Renowned faculty
- Evidence-based courses that improve outcomes
- 30 years of life-changing learning

Specialty Tracks

Learn with courses throughout the lifespan – neonatal, pediatric, adult and geriatric. Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us and plan every course you'll take in 2026.

ERI Rewards*

Your ERI experience is more rewarding than ever:

- First course discount
- Bring a friend savings
- Group discounts
- \$100 off your 4th multi-day course

*Subject to availability. Exclusions may apply. Visit our website for details and coupon codes.

Visit educationresourcesinc.com for all your 2026 course needs.

Credits

To receive a certificate of completion all registered attendees are required to attend and participate fully in all applicable course activities (i.e., labs, discussions, group work, polls, post-tests with passing grade of 80% or greater etc.) and complete the evaluation form.

Education Resources Inc. is an AOTA Approved Provider of professional development. This Distance Learning-Interactive course is pending AOTA approval for 12 contact hours 1.2 CEUs (Intermediate Level, OT service delivery, Foundational Knowledge & Professional Issues). AOTA does not endorse specific course content, products, or clinical procedures.

This course can be used toward your NBCOT renewal requirements for 12 units. Approved provider of the FL Board of Occupational Therapy-CE Broker – 14 hrs. This course meets the approval of the TX Board of OT Examiners.

Education Resources, Inc.
Intermediate level
1.2 ASHA CEUs

ASHA CE Provider approval and use of the Brand Block does not imply endorsement of course content, specific products, or clinical procedures. SLPs that require ASHA must submit your [ASHA participant form to ERI here](#).

ASHA credits are accepted by the TX Department of License and Renewal. Application has been made to the FL Physical Therapy Association for 14 continuing education contact hours. Accreditation of this course does not necessarily imply the FPTA supports the views of the presenter or the sponsors.

Application has been made to the MD Board of Physical Therapy Examiners.

Application has been made to the MN Board of Physical Therapy.

Application has been made to the NJ Board of Physical Therapy Examiners.

Approved sponsor by the State of IL Department of Financial and Professional Regulation for Physical Therapy for 14 contact hours. Approved provider by the NY State Board of Physical Therapy for 14 contact hours (1.4 CEUs).

Education Resources, Inc. is an approved provider for Physical Therapy CEUs in the following states: CA, NM, OK, TX and the assignment does not imply endorsement of specific course content, products, or clinical procedures for these.

The following state boards of physical therapy accept other states' approval: AK, AR, AZ, DC, DE, GA, HI, ID, IN, KS, KY, MA, MI, MO, MS, NC, OR, PA, RI, SC, UT, VA, VT, WI, WY. The following state boards of physical therapy either do not require course pre-approval or do not require CEUs for re-licensure: AL, CO, CT, IA, ME, MT, NE, ND, NH, SD, WA.

12 hours of this course qualify towards the discipline-specific hours for the 20-hour requirement for NDTA re-certification. They do NOT qualify towards the 8-hour NDTA Instructor requirement for re-certification. Education Resources, Inc. 266 Main St, Medfield, MA 02052. Please contact us with any special needs requests: info@educationresourcesinc.com or 800-487-6530.

Webinar Dates and Times

June 11 and 12, 2026

9:40 am EST • 8:40 am CST • 7:40 am MST • 6:40 am PST (US)

Registration is for both sessions. Zoom log-in instructions and course materials will be emailed/added to your ERI account 5-7 days prior to the first date of the webinar.

\$389 fee. LIMITED ENROLLMENT. Cancellation will be accepted until 14 days prior to the start date of the course, minus a \$75 Administration Fee. There will be NO REFUNDS after this 14-day deadline. Registration will be accepted after deadline on a space available basis. We encourage you to register online!
