Integrating Breastfeeding into Your Infant Feeding Practice: Advancing Clinical Skills

Robin Glass, MS, OTR, IBCLC
Lynn Wolf, MOT, OTR, IBCLC

EDUCATION RESOURCES INC
life-changing learning for therapists by therapists

Faculty

Robin Glass, MS, OTR, IBCLC and Lynn Wolf, MOT, OTR, IBCLC specialize in the treatment of infants, both as hospital inpatients and outpatients with a strong focus on feeding issues. Renowned as experts in their field, they are NDT trained and Board-Certified Lactation Consultants, with extensive national and international experience speaking about the infant feeding. Ms. Glass and Ms. Wolf have authored numerous journal articles as well as the book Feeding and Swallowing Disorders in Infancy: Assessment and Management. They were recipients of the National Association of Neonatal Therapists (NANT) Pioneer Award in 2015. They currently practice occupational therapy at Seattle Children's Hospital in Seattle, WA.

About this Course

This course provides infant feeding therapists (OT, SLP, PT) foundational knowledge about breastfeeding to enhance their ability to help clients achieve their breastfeeding goals. Areas of focus will include understanding the difference and similarities between breast and bottle feeding, impact of tethered oral tissues on breastfeeding, and approaches to common breastfeeding issue in the NICU/hospital and in the outpatient setting.

Learning Objectives

1. Compare oral function used on the breast and bottle during infant feeding
2. Relate how tethered oral tissue impacts oral control for breastfeeding
3. Recognize factors that impact breastfeeding success in premature and other hospitalized infants
4. Select tools appropriate to support specific breastfeeding challenges of the dyad

Audience

This course is designed for OTs, PTs and SLPs to provide foundational knowledge about breastfeeding.
