

Vestibular Rehabilitation:

Evaluation and Treatment of Dizziness and Balance

Jeffrey Walter, PT, DPT, NCS

Faculty

Jeff Walter, PT, DPT, NCS is the Director of the Otolaryngology Vestibular and Balance Center at Geisinger Medical Center in Danville, PA, and an associate faculty member at Misericordia University, Department of Physical Therapy. Jeff graduated from the University of Wisconsin with a Bachelor of Science in Physical Therapy and from the University of Scranton, with a Doctorate. He has attained competency certification in "Vestibular Rehabilitation" and "Vestibular Function Test Interpretation." Since 1999, Jeff has lectured at professional conferences, universities and continuing education courses for audiologists, physicians and therapists involved in managing patients with dizziness and imbalance. He has a research interest in BPPV and superior canal dehiscence.

Disclosure: Financial: Jeff Walter receives an honorarium for speaking. Non-Financial: He has no non-financial relationships to disclose.

"Excellent speaker, very knowledgeable about topic and information. Clearly organized in text and in seminar."

-Tina C.

About this Course

This evidence-based course will train clinicians in the practical management of vestibular disorders. The course will include instruction in anatomy and physiology, medical management, pathology, detailed bedside examination and **treatment** skills. The material will be presented in a lecture, lab and video case study format. Competence in the performance of a comprehensive office / bedside examination and treatment skills will be addressed in a lab format. The seminar is intended to enhance the clinician's ability to evaluate the appropriateness and effectiveness of VRT for vestibular disorders. Practical application of VRT to a variety of practice settings (outpatient, acute care, SNF, ER) will be discussed. An emphasis will be placed on the management of BPPV variants and vestibular hypofunction.

Objectives

- 1 Perform a detailed bedside vestibular and balance examination
- 2 Based on patient history and bedside examination, identify the specific features of:
 - o Peripheral vestibular disorders
 - o Central vestibular disorders
 - o Non-vestibular dizziness
- 3 Recognize typical characteristics of peripheral vestibular vs. central-etiology nystagmus
- 4 Identify appropriate standardized assessment tools for use in vestibular rehabilitation
- 5 Prescribe rehabilitation programs to address adaptation and compensation for vestibular dysfunction
- 6 Identify specific variants of BPPV and perform appropriate canalith repositioning maneuvers
- 7 Identify indications for further diagnostic testing/ medical referral

Schedule – Day 1

7:30-8:00	Registration/Continental Breakfast
8:00-10:30	Detailed Anatomy and Physiology of the Vestibular and Balance System
10:30-10:45	Break
10:45-12:00	Disorders and Management Options <ul style="list-style-type: none"> a. Unilateral Disorders: vestibular neuritis, labyrinthitis, vestibular schwannoma, superior canal dehiscence, anterior vestibular artery ischemia, Meniere's disease b. Bilateral Disorders c. Central Disorders: MS, vertebral basilar insufficiency, CVA, Chiari Malformation, cerebellar degenerative disorders, temporal bone fracture/TBI d. Non-Otogenic Dizziness and Imbalance e. Migraine, anxiety, cervicogenic dizziness, postural hypotension, malingering
12:00-1:00	Lunch (on your own)
1:00-2:15	Vestibular Disorders and Management Options (cont)
2:15-2:30	Break
2:30-5:30	Bedside / Office Evaluation (combined lecture / practicum with video case studies) Oculomotility/stability screen, tuning fork examination, multi-canal head impulse testing, head shake, hyperventilation, vibration, static vs. dynamic visual acuity, CTSIB, Fukuda Step Test, gait assessment

Schedule – Day 2

7:15-7:45	Continental Breakfast
7:45-8:45	Bedside/Office Evaluation (cont)
8:45-10:00	Vestibular and Balance Rehabilitative Treatment Strategies <ul style="list-style-type: none"> a. Head motion induced oscillopsia b. Imbalance
10:00-10:15	Break
10:15-12:00	Benign Paroxysmal Positional Vertigo Pathophysiology, identification of variant forms, differential diagnosis, canalith repositioning maneuvers, management guidelines
12:00-1:00	Lunch (on your own)
1:00-3:00	BPPV Practicum and video case studies with emphasis on differential diagnosis and assessment of treatment efficacy: <ul style="list-style-type: none"> a. Examination: Hallpike, Roll, Sidelying Tests b. Maneuvers: Modified Epley, Liberatory (Semont), Gans, Gufoni, Kim

ONLINE SERIES

We've infused the excitement and clinical relevance of our live courses into new online series

Learn at your convenience

Advanced Vestibular Series

Acute Care Series

Post Concussion Series

Online courses include free downloadable handouts and access for an entire year.

ERI: Life-changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage:

- o Techniques you'll use the next day
- o Peers who share your passion
- o Renowned faculty
- o Evidence-based courses that improve outcomes
- o 30 years of life-changing learning

Specialty Tracks throughout the lifespan – Neonatal, Pediatric, Adult, Geriatric

Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us and plan every course you'll take in 2019.

Visit educationresourcesinc.com for all of your 2019 courses.

ERI Rewards

Your ERI experience is more rewarding than ever.

- o First Course Discount
- Bring a Friend Savings
- Group Discounts
- \$100 off your 4th Multi-day Course
- o And more

Subject to availability. Exclusions may apply.
