

Assessment and Treatment of Complex Feeding Disorders: Assessing and Treating the Whole Child

Mary Tarbell-Bickley, M. Ed, CCC-SLP

Faculty

Mary (Polly) Tarbell-Bickley engages students with her dynamic presentation style and deep expertise gained over 29 years as a speech-language pathologist specializing in pediatric feeding disorders. She currently works at the University of Virginia's Children's Hospital in Charlottesville, Virginia. She is the director of the nationally-known Encouragement Feeding Program, through which she has directly seen over 600 children with complex feeding disorders. She has published a peer reviewed article in *Infants and Young Children* regarding weaning children from gastrostomy tubes and has co-published a chapter in *Communication Sciences and Disorders: An Introduction, 2006*. She currently lectures at the University of Virginia Curry School of Education regarding pediatric feeding disorders.

About this Live Webinar

Clinicians will be taught the necessary components of a comprehensive evaluation of feeding problems including those encountered by children with oral motor dysfunction, ankyloglossia, oral motor inexperience, oral hypersensitivity, behavioral rigidity and anxiety as seen in children with cardiac issues, prematurity, ASD, syndromes and SPD. Focus will be on a holistic treatment approach for challenging feeding disorders that are characteristically seen with tube dependency, oral inexperience, severe oral hypersensitivity, rigid eating patterns, and difficulty transitioning to table foods. Participants will leave with a comprehensive therapy tool-box including suggestions for reducing mealtime stress, improving oral competence and thus confidence and ensuring family carryover. Video case analysis will enhance problem-solving in hospital.

Objectives

- 1 Identify children who are appropriate for oral functional therapy.
- 2 Perform a holistic evaluation for complex feeding problems.
- 3 Identify the barriers to normal eating patterns and reasonable treatment goals.
- 4 Develop a holistic treatment approach, including determining treatment priorities and the appropriate intensity of therapy (including issues of timing as to when to use resources differently).
