Developmental Interventions for Infants with Tracheostomy Tubes On-Demand

Holly Schifsky, OTR/L, CNT, NTMTC, CBIS

Faculty

Holly Schifsky has worked in pediatrics for 27 yrs., with 16 yrs. in a level 4 NICU. She is a Certified Neonatal Therapist, Certified Neonatal Touch and Massage Therapist, Certified Brain Injury Therapist, a member of National Association of Neonatal Therapists, and has completed 6-month mentorship in infant/child NDT. She has worked within the NICU and NICU follow-up clinic to maximize patient and family outcomes for the most complex premature and medically-fragile term infants. Holly received her BS in OT from the University of North Dakota. She is a faculty member for the Neonatal Touch and Massage certification. She received the National Association of Neonatal Therapists Clinical Excellence award in 2018 for her clinical expertise and dedication to advancing the therapeutic interventions for NICU infants with cardiopulmonary conditions.

Disclosure - Financial: Holly Schifsky receives an honorarium from ERI.
Non-Financial: She has no non-financial relationships to disclose.

About this On-Demand Course

Advance your assessment, treatment, and outcomes for infants requiring a tracheostomy tube. Medical co-morbidities associated with infants requiring a tracheostomy tube, implications of the tracheostomy tube on oral feeding/motor development, integrating physical rehabilitation treatments and respiratory therapy interventions to maximize infant outcomes with oral feeding, motor development, and daily activities related to play skills will be discussed. Expand your practice by integrating evidence into your clinical decision-making including reading/interpreting vent settings during interventions for objective assessments of infants that are intubated or have tracheostomy tubes. Expanded lecture/lab section devoted to infants with tracheostomy tubes include oral motor, feeding interventions, postural control, manual cough facilitation, positioning/handling, integrating use of a one-way valve into treatment, weaning respiratory support, and durable medical equipment recommendations for infant/family in preparation for home discharge. This course will focus on infants up to 12 months corrected gestational age with information applicable to clinicians working in the NICU, PICU, transitional pediatric care, in-home therapy, early intervention, and outpatient clinics.

Objectives

- Differentiate medical pathology from normal development for infants requiring a tracheostomy tube
- Determine how the placement of a tracheostomy tube influences the development of oral feeding and postural control skills
- Identify three risk factors for feeding dysfunction associated with oral feeding an infant with a tracheostomy
- Apply at least two feeding strategies for infants requiring a tracheostomy tube to improve sensory and motor performance with oral feeding
- Apply at least two postural control strategies for infants with a tracheostomy tube to improve their ability to utilize vocal cord movement to enhance their cough, phonation, and gross motor movement
- Choose an individualized care plan for an infant using the provided case study with tracheostomy tubes for improved outcomes with oral feeding, cough facilitation, motor control, and phonation

Audience

This course is recommended for OTs, PTs and SLPs in the NICU, PICU, transitional pediatric care, in-home therapy, early intervention, and outpatient clinic settings.

Help your patients achieve better outcomes.

ERI: Life-changing learning

You love what you do. Our courses remind you why. As a therapist, you change lives every day – and have your life changed in return. ERI is life-changing learning, for therapists by therapists.

The ERI Advantage

- Techniques you'll use the next day
- Peers who share your passion
- Renowned faculty
- Evidence-based courses that improve outcomes
- 30 years of life-changing learning

Specialty Tracks

Learn with courses throughout the lifespan – neonatal, pediatric, adult and geriatric. Each ERI specialty track is designed to make the most of your continuing education time, budget, and goals. Start your search with us and plan every course you'll take in 2024.

ERI Rewards*

Your ERI experience is more rewarding than ever:

- First course discount
- Bring a friend savings
- Group discounts
- \$100 off your 4th multi-day course

*Subject to availability. Exclusions may apply. Visit our website for details and coupon codes.
